Data collecting & monitoring

Malgorzata Worek

- In order to keep track of how close we get to our goals, it is essential to keep a CRC-wide statistical database and monitor its evolution with time

- Here we present the second statistical summary generated based on data from the Annual Meeting of the DFG Transregional Collaborative Research Center (CRC/Transregio 257)

- A (Zoom) meeting that took place on May 26-28, 2021

- Webpage: [https://indico.scc.kit.edu/event/2365/overview](https://indico.scc.kit.edu/event/2365/overview)

- Number of participants 103
Distribution of Speakers by gender

- Female: 25%
- Male: 75%

20 Speakers
Distribution of participants by gender

- Female: 2%
- Male: 16%
- Rather not say: 82%

92 Responses
Nationality

93 Responses
The pie chart represents the distribution of 2nd nationalities among the respondents, with each country being represented by a different color. The chart shows that each nationality, Côte d'Ivoire, Germany, Poland, and the UK, accounts for 25% of the responses. This indicates that each nationality is equally represented in the sample.
Position

- Professor (tenured): 33%
- Professor (non-tenured): 14%
- Senior staff member (tenured): 9%
- PhD student: 4%
- Postdoc: 6%
- Junior staff member (non-tenured): 3%
- Master student: 1%
- Other: 3%

Total responses: 91
